

 JSI flux

open plan

**flexible at every level**

Above- and below-surface storage. Adjustable-height benching that meets different work styles. Lockers that join with workspaces for impromptu collaboration. Flux is flexible, thoughtful office design from every angle, top-to-bottom.

**a new angle on teamwork**

Take a different approach to collaboration with 120-degree teaming stations, or choose modernized straight benching. Low privacy screens invite more conversation, while movable privacy hoods cue more focused work.

personalized yet streamlined

Tables adjust to various heights, privacy screens double as tackboards, and slat walls make a tidy place for accessories. Lockers with mail slots provide personal storage that blends in perfectly. And across the board, power is integrated and out of sight.

**collaborative quad** / Four-person station with a center table, pantry-style storage with markerboard backs, and above-surface storage.

**credenza dividers** / Lower credenzas delineate stations, while upper storage and side screens provide further privacy, with markerboards for notes.

**storage-supported** / Credenzas and towers rest on metal legs and provide both structure and privacy. Tackboards and accessories add personalization.

**L-station quad** / L-shaped stations divided by dual-sided pantries with end panel supports and privacy hoods. Mobile pedestals tuck under tables.

Center rail cabinet*

**minimal design, minimal distraction**

End panels provide full-depth privacy on the sides, acrylic screens block distraction across the table, and movable dividers sit between stations. Credenzas provide storage and seating.

**raising the open plan standards**

Cases provide a sturdy base and conceal the hardware of adjustable-height benching. Each privacy screen travels with its worksurface. Mobile pedestals provide extra storage and fit perfectly.

**open and adjustable** / Light scale H-frame adjustable-height benching with integrated wire management and monitor arms to make transitions seamless.

**curved collaboration** / 120-degree curves bring flow to a space in adjustable-height H-frame configurations, complete with privacy screens.
