Scalable Solutions.

One10 Conference provides a scalable aesthetic with a versatile range of tables that provide solutions for casual to formal meetings that can support individual technology, the sharing of personal technology, or communal technology equipment. From conference tables, meeting tables, TV stands, and Parsons Tables, the collection provides flexibility for tailored applications, virtually anywhere.

Conference Tables with decorative inlays, sleek channels, or solid tops are available in 48" and 60" widths, and lengths of 96" up to 192". All sizes are available in classic rectangular, boat-shape, or tapered view shape. Each style offers passive cord management options for power and USB charging.

Integrated Technology.

Power through the day with convenient and intuitive solutions within easy reach. One10 Conference offers technology that includes the necessary cords to keep all the latest phones and tablets charged. Amp up meetings with powerful collaborative screen sharing. Up to 64 users can connect through wireless technology to share in a real and relevant way.

Parsons Tables are offered in 42", 36" and 30" heights and span up to 120". Specify a classic one piece top or a contemporary two-piece top with a slot down the center for passive cord storage with power and USB charging.

Parsons Tables

Single Column Meeting Tables

White, black, or silver Duo and Trio power ports can be mounted in worksurfaces, below worksurfaces, or in wire management channels. Available in standard Nema plugs or non-sequential daisy-chain plugs. See price list for more information on ports and applicable locations.

All One10 bases include accessible passive wire management.

Stay Connected.

Connect with clients and co-workers in environments that invite real conversation. Mix tables of seated, counter, or standing height with ancillary media credenzas and TV stands to further enhance productivity. Achieve a clean, contemporary look enhanced by the straight-grain color palette of wood veneers and textured laminates.

Meeting Tables have a central column and low profile base design to allow for unfettered use around all sides of the table without table legs getting in the way of chairs or users' knees. The column is available for seated or standing height tables and features a removable panel to route cords. Meeting Tables can be used in a variety of combinations with Media Credenzas and TV Stands.
