SitOnIt • Seating[®]

DESIGNED BY JORGE PENSI

Known for his fluid, elegant aesthetic, award-winning furniture and lighting designer Jorge Pensi creates timeless pieces that adapt easily to multiple environments. Pensi studied architecture in his native Buenos Aires before moving to Barcelona and establishing his design practice there in 1984. During Spain's new design movement, Pensi emerged as one its key players with his more modern, universally-appealing style.

“Sona is absolute comfort and pure aesthetic; non-invasive, lightweight, with the ability to last over time”

Who we are

With the fastest lead time in the industry, SitOnIt Seating® offers high-quality seating that combines award-winning design with intelligent ergonomics. From healthcare to higher education, we've been the go-to destination for built-to-order seating since 1996.

Born and bred in California, all of our key collections are designed in-house and rigorously tested for quality control, strength and durability. We make customization easy—our user-friendly ChairBuilder® tool lets you design your dream chair with just a few clicks. With chairs, sofas and stools for every desk, space and environment, the possibilities are endless.

Discover premium seating solutions—at a fraction of the price.

Our build-to-order promise

Custom-designed chairs, no waiting. Our lean manufacturing operation means we can ship build-to-order chairs in just two days. That means we can build the chair you want—and deliver it when you want it—at a price no one else can match.

Fastest shipping in the industry

Choose from two, five or 10-day shipping. We cut lead time, sync orders and avoid off-schedule shipments at a rate our competitors just can't match. From start to finish, we maximize efficiency in every single area—whether it's sourcing and logistics or assembly and production.

Designed for (executive) decisions

Create contemporary conference rooms with the distinct style of Sona. This up-to-any-task chair surrounds your tables with smart, sleek and slim lines while powering productivity with essential ergonomic engineering.
