

OUR DECOMMISSION SERVICES

Exiting your office space in a timely, efficient manner that helps you fulfill your lease obligations doesn't need to be painful. Expertise in project management, handling moving timelines, and coordinating complicated logistics is crucial to a successful project. If any of this sounds like your decommission project, you're in luck. **This is what we do.**

BENEFITS OF PARTNERING WITH US

- One vendor that handles the entire project, beginning to end.
- Two decades of experience handling complicated, multi-phase projects across the country.
- Strategic planning that helps you meet difficult timelines and meet your lease obligations.

OUR CUSTOMERS

RECENT TESTIMONIAL

John and his team are top notch! They are great communicators, very organized, have a terrific crew, and you just don't need to worry when you have them onboard. Throughout my project, we had delays and changes with the products being removed. They just rolled with the punches. I was really amazed when I visited the job site because it was so clean! They swept the floors and had all of the product neatly organized and staged to be moved out. I would highly recommend them. I don't need to wish you good luck if you use Ethosource, because I know you are in good hands.

- Donna B. / Account Manager
