

delta seating

delta seating by Vondom product information

In partnership with Vondom – a leading Spanish provider of furniture for modern indoor and outdoor commercial spaces – Studio TK is offering Delta seating in North America.

The Delta collection by Jorge Pensi blends equally well with exterior or interior contemporary spaces. The design intent behind the Delta chair was to create a timeless product that constantly seeks to strike a balance between realism and surrealism – matter and antimatter, abstraction and emotion. The goal was to maximize emotions while minimizing resources, questioning the common logic of something new. Delta seating is made of injected polypropylene with fiberglass. Chairs are stackable and available in several colors.
