

# 5 COST SAVING TIPS FOR BUYING OFFICE FURNITURE

Strategies for Affordable & Functional Office Furniture

As a business owner or manager, you know that outfitting your office with the right furniture is important for your employees' productivity and your company's image. However, office furniture can be a significant expense, especially for small businesses. Fortunately, there are ways to save money on office furniture without sacrificing quality.

**Here are five cost-saving tips for buying office furniture, especially if you're on the COSTARS contract:**

1

### **CONSIDER FURNITURE THAT MAXIMIZES SPACE**

Ergonomics is the science of designing equipment and products to fit the human body. In the classroom, this means ensuring that the furniture, such as desks and chairs, is designed to support the body in a neutral position, reducing the risk of physical discomfort and injury.

2

### **CONSIDER USED OR REFURBISHED FURNITURE**

Used or refurbished furniture can be a great option for businesses on a tight budget. There are many reputable dealers who specialize in selling high-quality used or refurbished office furniture at a fraction of the cost of new furniture. Buying used or refurbished furniture can also be more environmentally friendly, as it keeps furniture out of landfills and reduces the demand for new resources.

3

### **FIND A SUPPLIER WHO IS "YOU-CENTRIC"**

When buying office furniture, it's important to work with a supplier who takes the time to understand your unique needs and vision. A reputable supplier will invest time in understanding your specific goals and challenges so they can provide the right solution that meets your requirements. Additionally, they can guide you through any issues you may not have considered. By collaborating with a supplier who comprehends your needs, you can rest assured that you are getting the best possible value for your money.

# 4

## CONSIDER ERGONOMIC FURNITURE

Ergonomic furniture can be a great investment for your business. Ergonomic chairs, desks, and other furniture can help reduce the risk of injury and improve employee comfort and productivity. While ergonomic furniture may cost more upfront, it can save you money in the long run by reducing healthcare costs, absenteeism, and turnover.

# 5

## TAKE ADVANTAGE OF COSTARS CONTRACTS

If your business is on the COSTARS contract, take advantage of the discounts and competitive pricing that the program offers. By working with a COSTARS-registered supplier like Ethosource Office Furniture, you can save money while still getting high-quality furniture that meets your business's needs.

**By following these cost-saving tips, you can furnish your office with high-quality furniture while still staying within your budget. Whether you're a small business or a larger enterprise, smart furniture buying can help you improve your business's productivity, efficiency, and bottom line.**
