Elegance in action

Its laminate TV support moves in sync with the surface, while a felt panel, available in four colors, stylishly conceals cables for a clean and inspiring environment.

Without compromise

Visio ensures neat cable management with its integrated grommet and discreet routing through the modesty panel or leg. The small wall hides the adjustment column and allows wiring to pass through. A laminate back can be specified for a beautiful finish.

It is how your ideas come to life in elegant, uncluttered spaces—without compromise.
