

ZORI COLLECTION
ENWORK

When Design and Engineering Meet

Zori® is a complete collection of products intentionally designed to fuel learning and collaboration for decades to come. With 34 product types ranging from lecterns and teacher desks to training tables and high-tech media solutions, Zori brings design consistency, lasting durability, and smart technology integration to high-performing spaces across campuses and corporate facilities.

34

Inspired by Luxury Automotive Design

When it came to Zori, we knew we wanted to create something different. Where most leg options on the market today are steel columns, Zori offers four unique aluminum profiles which correlate with specific leg configurations. With subtle curves and crisp lines, these evolved aesthetics make Zori a step above.

Standard caster options include Black or White with Grey trim.

Available on Y, Straight-Leg, and 6-Post Hexagon tables.

Available on T and C-Leg tables.

Available on X-Base and TT-Leg tables.

Available on 4-Post X-Base, 6-Post Hexagon Base, and Split Y-Leg tables.

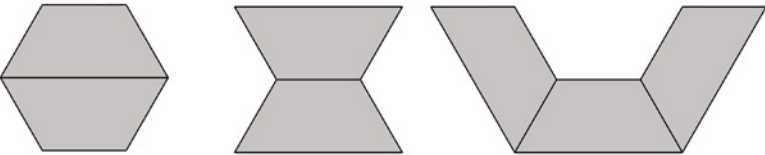

1 Puzzle, 34 Pieces

The comprehensive Zori Collection includes all the elements needed to bring a space to life, from lecterns and mobile markerboards to conference tables and height-adjustable command centers. Zori allows anyone to revamp their space in minutes by changing table functions and layouts to empower group work or lectures whenever needed.

Shares Well With Others

Mobile Monitor Stands enhance productivity in any space by accommodating monitors up to 65". Trapezoid top shapes encourage teamwork by offering a more subtle angle that brings small groups closer together.

Zori Media Center

Video Sharing

Technology Enabled Active Learning

The Zori Media Center is the ideal solution for TEAL environments everywhere. Highly adaptable, the Zori Media Center allows spaces to reconfigure easily in seconds. Available freestanding, with an integrated ganging hitch compatible with any seated height table, or as a complete table with a compact wedge top.

Elevate and Secure Classroom Technology

Zori Monitor Lift makes a power move by managing monitors with rise-and-stow capability. Control individual lifts with an at-station switch or simultaneously manage all screens with the primary remote. Whether you need one or 100 stations, nothing performs like Zori.

Single-User with Caster Option

Back-to-Back Ganging

Back-to-Back Ganging with End Panels

Multi-Station, Multi-Circuit

From durable materials and construction to integrated wire management, Zori training tables suit every need. When paired with the Zori Powerlex Modesty Panel, cables and wires stay cleanly stowed out of sight. Multi-circuit support within the panel securely powers entire rows of tables by a single infeed.

POWER AND DATA
SIMPLIFIED

The Zori Powerlex Modesty Panel provides clean and secure power/data management by keeping unsightly wires tucked away. The panel opens from either the front or back of the table.

Powerlex Modesty Panel

2-Circuit Power

Hinged door locks in place and is accessible from the front or back of the table, depending on installation.

Rearrange and Reimagine

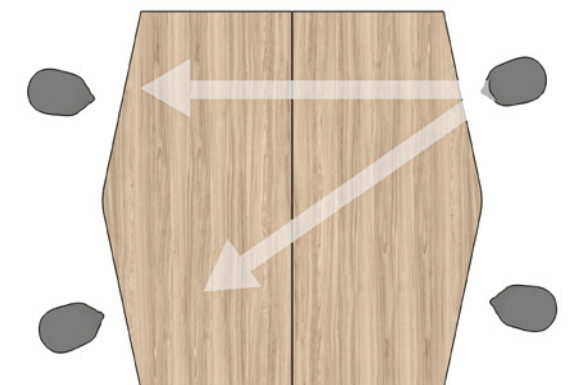

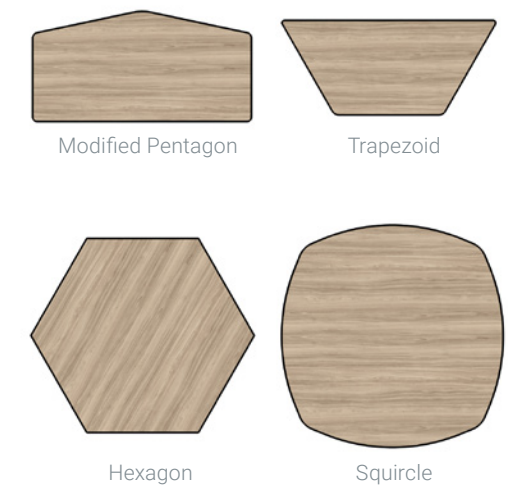

Engineered with Enwork's custom flip mechanism, Zori Flip Top tables were designed with stability in mind. As secure as our fixed top variations, these tables never sacrifice stability for flexibility. Complete with a black laminate undersurface for a polished look in any position.

Designed for Face-to-Face Interaction

Bring people together to share information and comfortably interact throughout the day. A variety of table top shapes and sizes creates layout versatility, encourages collaboration, and enables clear sight lines.

Versatile Top Shapes

FROM KINDERGARTEN
CLASSES TO UNIVERSITY
SPACES, ZORI SUPPORTS
ALL SHAPES AND SIZES

Made for All Ages

Zori table heights begin at 24", creating a perfect solution for all ages and applications.

Select leg styles available in 24", 27", 29", and 42" heights.

Perimeter Whiteboards are available with custom color graphics.

Support New Postures

Standing height tables enable new postures, ideal for hyperactive students and colleagues. Add privacy below the worksurface with optional fixed perforated steel modesty panels or pivoting modesty panels in mesh fabric, laminate, or frosted acrylic.

ENWORK

The Next Generation of Enwork Tables

There's a science to enabling learning. At Enwork, we draw upon deep research by universities and design firms to create products that support learners, instructors, and facility managers. With rapid development and adaptive processes, we're always exploring and learning so that our clients can optimize their spaces.

Investments today must work for tomorrow. That's why Enwork works hard to stay ahead of trends to deliver compelling, forward-thinking products.
